

About this collection...

We created the original volume of *Sixty-Second Hymn Settings* (70/1561L) in order to provide tasteful and artistic arrangements for those places in the Sunday service which don't call for full-length solos. One of the occasions where these shorter pieces are often needed is a communion observance, so we've created this new collection to deal specifically with that need.

Hymn Miniatures for Communion provides fifteen arrangements of meditative hymns suitable for the Lord's Supper, or for use during Lent and Holy Week. They're easy to learn, contain no page turns, and at the suggested metronome speeds will last exactly one minute.

At the end of each arrangement, there are a few measures marked "INTRO." These introductions are provided in case you want to use a *Hymn Miniature* as a "chorale prelude" to introduce a congregational hymn. The selections are written in common hymnal keys, and the introductions will lead directly into the first bar of the hymn. Of course, you can omit the introduction if you are playing the piece for other purposes, such as:

- A brief call to worship rather than a full-length prelude.
- When longer offertories aren't needed, especially in smaller churches.
- When music is required to "fill" between elements of a service.

Blending musicality with practicality, *Hymn Miniatures for Communion* will become a favorite of busy keyboardists.

—The Publisher

A complete index of hymn titles and tune names can be found on page 32.
